<TEXT>I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

And while I am at this It would be in my benefit to stop spending my tax dollars trying to enforce a morality code that is utterly bogus. I am certainly able to pick and choose what I watch and listen to without your unwelcome help. As an adult TAXPAYER I have certainly earned the right to listen and watch whatever I want without your supervision. It would be in MY best interest if you would just do as you were mandated and keep the airways available for many to use responsibly. If all Americans wanted to listen to gospel and childrens programs all the time we would do so already.
FREEDOM RULES.

Tim Kothavala tdtk@monad.net

Sincerely,

Tehmasp Kothavala
